

### **INSTRUCTIONS**

1. Navigate over to the following mathematics YouTube channel: **3Blue1Brown**
  - a. Here's a link to a sample video from that site: <https://youtu.be/VcgJro0sTiM>
  - b. There are a few other channels you might check out as an alternative (but you don't have to):
    - i. Think Twice
    - ii. Welch Labs
2. Check out some videos that strike your interest, and pick 1, 2 or 3 videos that you will want to write a response about.
3. Write a 1-page response about the video(s) that you watched. Try to answer the following questions:
  - a. What piqued your interest about the video(s)?
  - b. Why did you choose that video to write about?
  - c. What did you learn from watching the video?
  - d. Was it hard to understand, or easy?
  - e. What questions do you still have about the subject in the video?
  - f. Can you see (or did the video mention) where this might be used in real-life?
  - g. What other things can you say about the video(s)?
4. Use the following format options:
  - a. If typed, use 12-point font and DOUBLE SPACED.
  - b. If hand written, you may skip every other line
